TIPS FOR HELPING YOUR MIDDLE SCHOOL STUDENT BE SUCCESSFUL

1. Establish a MYSTUDENT account as soon as possible. Start at the school's website with the parent/student link. Monitor the account weekly and email the teacher with any questions you have. Your child will have an account as well.
2. Check that your child is completing his/her planner every day. Each week planners are checked AND graded for the preceding week. Students will receive full credit for the following: parent signature, due dates for assignments, a brief note about what was done in each class each day, and a homework plan for the current week. Ms. A. will teach them how to do the homework plan.
3. NEVER ASK "Do you have any homework?" ASK INSTEAD: "What does your planner show you are working on tonight?" Homework occurs nightly.
4. Encourage your child to show you the directions when you look over his/her work. Most assignments come with written directions and a rubric. We want the students to learn the habit of self-assessment.
5. Help your student maintain an organized book bag. **Never** throw away loose pages that are academic. Keep them in a file until the end of the year in case the student needs them.
6. **Stay informed.** Make sure the school has your updated contact information so you can receive all automated phone calls. Bookmark the school website; follow TEWMS on Facebook, Twitter, and Instagram. Shadow your child on MyLearning (aka Canvas).
